ITEM NO.	QUANTITY	DESCRIPTION	UNIT PRICE
----------	----------	-------------	------------

SPECIAL NOTE:

Due to the size of properties contained in Items 1 through 13, we have been requested by the Disposal Agency to have the cooperatives in each State, if possible, group their orders through one or two central sources so as to simplify shipping and billing.

When sending in your order, please state whether or not you will be satisfied for us to group shipments in the most strategic manner; and also if your cooperative is selected as the central shipping point, will you agree to accept billing for the entire group included in the shipment.

You will be advised after grouping has been made so that you will know where your portion of the properties have been shipped.

State Safety Directors are meeting in Washington during the week of September 30. Some of these Directors have suggested that they will accept shipment for all climbers required in their state and be responsible for distribution to the various cooperatives within the state. This plan will be followed in any state where the Safety Director agrees.

17 1 DIESEL GENERATING UNIT UD-14, International, Century Generator Power Unit & Engine, Serial No. 339812-1-1. This unit is a 30 KW 120-208 volt, three phase, '50 cycles, new and has never been used.

Location: Black River Electric Cooperative
Ironton, Missouri

Those interested contact the cooperative direct for price, etc.
